

## BODY TREATMENT

The ultimate body treatment starts off with a dry brush exfoliation. The body is then wrapped up from the neck down with a warm hydrating mask and left on for 20 minutes while the scalp is massaged. The body is then unwrapped and the remainder of the mask is massaged into the skin leaving the body relaxed and the skin hydrated and smooth.

By itself, 50 minutes                      \$90  
or with a ½ hour facial, 75 minutes      \$115

2 options:

Lavender & Shea Butter

Oranger & Shea Butter

## PERMANENT MAKEUP

Permanent makeup is applied like a tattoo to produce looks for the eyebrows, eyelids and the lips that resemble manually applied makeup. The permanent makeup will restore a more youthful appearance without the hassle of applying makeup saving you time. Now you can wake up and already have your makeup freshly applied. Whether you want a soft powder brow for a more intense look or you just want the look of feathered hair like strokes for a 3D effect, micropigmentation can be the natural you. The service is done on three different areas - Brows, eyeliner and lips. I am available for a free consultation to discuss your future with permanent makeup.

Eyebrow                                      \$450  
Eyeliner                                      \$350  
Lips    \$500

## FACIAL TREATMENTS

No matter what facial you experience, you will leave feeling relaxed, refreshed and rejuvenated. Before any facial starts, the first step is to analyze the skin and make recommendations on the best treatment for the client based on your skin concerns. At the end of the service, I like to discuss a home care regimen for your skin care that works best for you. All facials are 50 minutes unless stated otherwise. Please arrive 10 minutes early for the full experience.

### **Christopher Street Organic Signature Facial \$85**

This facial includes an enzyme peel and a signature facial massage. The products are selected based on skin analysis to target any skin related issues and always leaves you with a glowing complexion.

### **Glycolic Pumpkin or Blueberry Peel Facial \$90**

This peel is chemically exfoliating the skin with glycolic acid to Peel away the top most layer of the skin. This will help tighten the pores and improve the look and feel of the skin. You will be left with an immediate burst of radiance and a healthy glow.

### **Glycolic Peel without Facial, No Extractions \$50** 20 Minutes

### **Collagen Facial with Enzyme Peel \$110**

The enzyme peel is applied under steam and will dissolve the dead skin cells. The collagen fibers provide a boost of hydration and plump fine lines and wrinkles. This facial leaves you looking instantly younger.

### **Oxygen Facial with LED Light Therapy \$115**

This is the rejuvenating facial. Adding oxygen to the skin will help to kill bacteria and provide nutrients to the skin. LED light therapy helps with many skin concerns such as reduces scarring, collagen boosting, improve circulation, reduce inflammation and treating acne for a smooth and healthy complexion.

### **Microdermabrasion Facial with Diamond Peel \$130**

Refresh your skin with the non-invasive skin resurfacing treatment. Outer layers of the skin cells are removed stimulating collagen production & cellular renewal.
